### OUR SCHOOL

Our school is in Paderno del Grappa in Via San Giacomo.

In our school you can find children from 3 years old to students of 19. American university students also study here. In our campus you can find classes and do sports, there are many sports facilities.

In the primary school we arrive at 8:10 and at 4:00 we finish school. At 10:10 the bell rings and we go to play for 30 minutes, after lunch we go to play again. Apart from usual lessons we have many laboratories such as Altre Parole, a lab where we learn the importance of speaking about our feelings. Fab Lab, where we experiment many things with Prof. Alan and many others. We also have a lot of opportunities to widen our

knowledge of English with penfriends,  
drama this magazine and CLIL.

We go to this school because we want to  
have a good education.

## OUR SPORTS FACILITIES

In our school campus there are:

- 2 swimming pools
- 3 gyms
- 5 football pitches
- 4 tennis courts
- 5 basketball courts
- Lots of open fields
- An athletics track

*We use these sports facilities in break time and with our teacher Paola for P.E. we even swim on Fridays.*

*This school is beautiful.*

PASTORAL 2019/ 2020 JOSEPH

THIS YEAR THE THIRD DAY OF SCHOOL WE WATCHED Joseph the King of dreams an animated film. This is the title because Joseph interpreted dreams. This is the theme for the pastoral year because we want to speak about dreams and our dreams.

The boy lived in Canaan with his family. He had 12 brothers and 1 sister, his mother and father. His brothers were jealous because his parents had a preference for him. His father gave him a special coat. Joseph received a precious gift from God, he could interpret dreams. One night dreamed about a wolf that killed a ram and after he had the dream his brothers didn't believe him. His brothers jealousy led them to sell him into slavery. He was taken to Egypt. Joseph uses his gift as a service to people. Joseph interprets dreams into reality. After a long time Joseph forgives his brothers because he realises they are sorry. Love for family wins over any conflict and also strengthens difficult relationships.

#### PENFRIEND PROJECT

Our English teacher decided to do a project called penfriends. We started last year to write letters in English and now we are waiting for the answer to our second letter. Our penfriends are in Kenya and they are 11 years old. With our penfriends we talk about school, our life, where we live and about our family. We like this project because we love communicating with other boys and girls of the same age in another country.

### CLIL ACTIVITIES OUR POINT OF VIEW

With teacher Maureen and teacher Chiara, we do clil at school studying subjects in Italian and English.

We concentrate on Maths, Geography, History, Science and Religion. Last year we did lapbooks; in Geography we did concept maps with photocopies of the world. In Maths we did lapbooks of fractions, in History we did a lapbook of the Egyptians. In Science we did ecosystems, the climate; in Religion we colored photocopies of St. John Baptist de La Salle. We did Clil to widen our knowledge of English. About Clil we liked it very very much.
