School trip to Palazzo Sturm class 3

Article 3 is about the trip of class 3, to Palazzo Sturm in Bassano del Grappa. The class went in a big room and they saw a movie that was about the five senses of the dinosaur and fossils, and they did a lab where they made a fossil. They went on the fifth of November 2019. They went because they are studying fossils and dinosaurs in history. They had a good time on their trip and loved the experience, after they went around the streets looking for fossils on the walls and on the floor.

CHESS PROJECT

This year our teachers decided to do a chess project.

We played chess once a week for 8 weeks with teacher Andrea. We played chess because it is a game of logic and concentration. Teacher Andrea told us the names, how to move the pieces and the strategy of this game. In March there will be a chess tournament. The teachers decided to create a team for the tournament. We liked this game it is particular and fantastic.
