## **Class 5 magazine project.**

### **Introduction**

---

This year class 5 magazine is at its 6th year. The class has chosen the name “THE GOSSIP CLASS”.

Of course they will not be telling us only gossip but, above all, about some of the great things the primary school gets up to. The cover for the first article is by Alessandra, thank you!

We hope you enjoying reading the articles.

## Here are our journalists

Leandro, Emmanuel, Gisele, Matteo

Sara, Noemi, Pietro D.B, Lorenzo

Alessandra, Luca, Pietro F, Aurora

## ARTICLE 1      group 1 Our Primary School

In our primary school at Paderno there are 5 classes and every class has 6 hours of lesson and 2 breaktimes. we have 10 teacher Paola for P.E and swimming ,but the our main teacher is teacher Sara for every studies subject ,teacher Deborah for English ,teacher Maureen for English andd clil ,teacher Antonella. At break time we going to the arena ,the football pitch and near the church. for lunch time we have 5 dining rooms and we have lunch in the biggest. near the car parking we have a big sport centre and we use it for P.E and swimming with teacher Paola but there are many rooms for gymnastics we love this school because it is very big and we like the lessons

Matteo, Gisele, Emmanuel, Leandro

## **ARTICLE 1      GROUP 2      CLIL PROJECT – ENERGY**

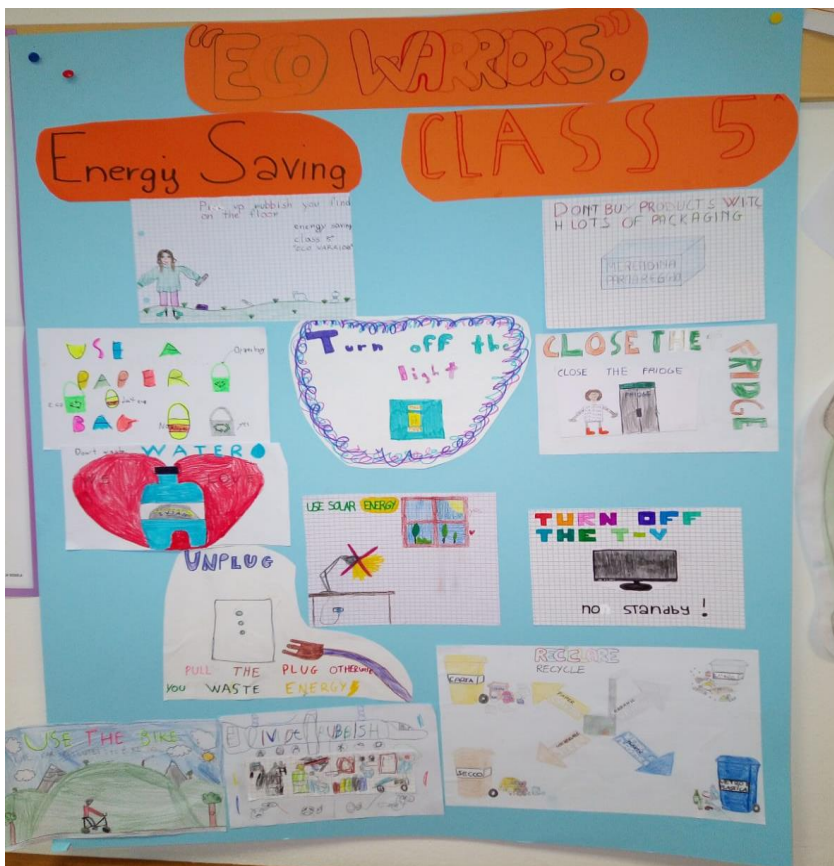

In class 5 we are doing the energy project , with teacher Sara and teacher Maureen. We are studying : heat energy , eolic energy , hydro energy , atomic or nuclear energy and electric energy. In energy there are two sources : Renewable energy and non Renewable energy. In Renewable energy there is : Water – hydro electric energy , sun – solar energy , wind – eolic energy , biomass – animal gas energy. In non Renewable sources ( they pollute a lot ) : petroleum , uranium and coal.

There are some things that we can do to save energy like :

- 1 Turn off the light
- 2 Unplug devices
- 3 Use solar energy
- 4 Don't waste water
- 5 Divide rubbish
- 6 Turn off the T.V. – no standby
- 7 Pick up rubbish you find on the floor
- 8 Close the fridge

- 9 Use paper bags
- 10 Use a bike
- 11 Recycle
- 12 Don't buy products with lots of packaging

Aurora, Pietro F, Luca and Alessandra

## ARTICLE 1 – GROUP 3 – PROJECT ALTRE PAROLE

In class we participate in the project altre parole with Elena and Federica, we do many activities regarding emotions.

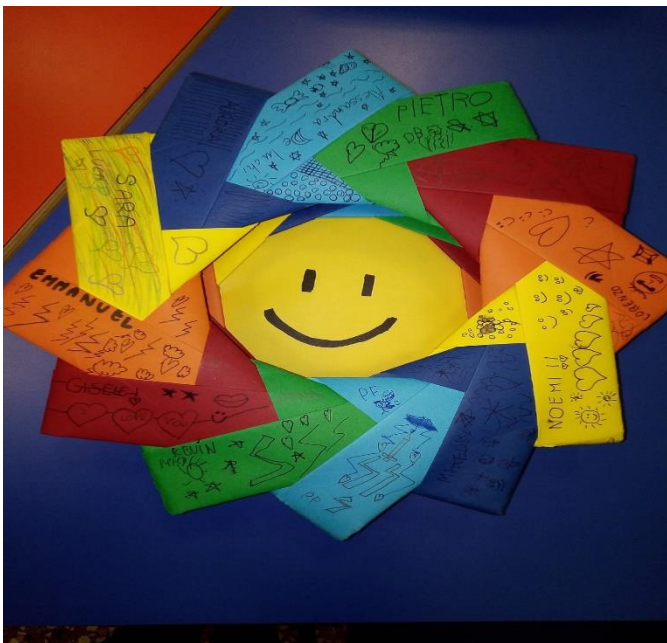

Together we made a beautiful sun.

In every ray we drew many pictures.

In the garden of the school we threw Elena and Federica's balloons in the sky.

In lockdown Federica and Elena prepared many activities and we did many geometric pictures because they wanted to see us and say hello.

This year we are continuing this project. Also the other classes participate in this beautiful project.

Pietro D.B, Sara, Lorenzo, Noemi
