

CLASS 5

PRIMARY SCHOOL MAGAZINE PROJECT 2021-2022

THE CRAZY CLASS MAGAZINE

Welcome to class 5 primary magazine project. This is the fifth year that the girls and boys of top class primary have taken on this challenging publication. This year the class has chosen the title. The pupils will be bringing you news from the campus and in particular the “world” of the primary school and what the various classes get up to.

We hope you enjoy reading the articles.

Class 5

SCHOOL TRIP C4 - C5 OASIS ST. CRISTINA TREVISO

On the 12th of October class 4 and class 5 went on a school trip to the source of the River Sile Springs. We left school and took a bus at 8.15 together with the teachers, Maria Luisa, Maureen, Mariangela. Around 9.00 o'clock we left the bus. The two classes divided and each class went on a guided tour. We saw manmade poplar groves. When our guide explained that animals prefer to live in a more protected environment surrounded by plants. After break under an old tree the guide Gianfanco talked about the legend of COA LONGA. It's a legend of a strong wind that is found there. For lunch we transferred to the Oasis of Cervara. Where there are lots of animals, turtles, tawny owls, ducks etc. After lunch break we took the bus and at 17.00 we arrived at school. So our fantastic trip ended.

GREEK MASKS

On the 19th November 2021, our class made these magnificent masks of Agamemnon, a king of ancient Greece. The material we made the masks with is copper.

We traced with the back of felt-tips and traced on the copper, we managed to create an optical illusion and we tried very hard to do the details to make it better.

After these fantastic masks we inscribed our name. It looks simple but it's very difficult. We used these fantastic masks for history after in class. Everyone asked who Agamemnon is and our fantastic teacher Maria Luisa explained perfectly who this man was. After a lot of time we finished our masks.

We hope this topic is interesting for you.

Bye and see you for the next article.

Alberto, Carlo, Riccardo and Michelle

OUR CAMPUS

Our school Filippin institute is at Paderno del Grappa and was founded by John Baptist della Salle and you can find from the nursery to high school.

Our school has a lot playing fields, some with grass and some cemented near the high school there is the canteen and the church, near the primary school there is the nursery and a pedestrian subway that goes to the playing fields and sports facilities: there are 2 swimming pools (a big one and a small one) 4 tennis courts, an athletics track and a few soccer pitches. There is also an arena, a theatre, gym and sauna.

In the primary school there are 5 classes and about one hundred children, there are 11 teachers: Maria Luisa, Mariangela, Sara, Lucia, Chiara, Antonella, Gloria, Maureen, Sophie, Stefano and the head teacher Enrico.

It's a beautiful school.

Article 1 - Group 5

SCHOOL ENERGY AND CARE PROJECT

First of all, our group would like to invite everybody to not waste ANYTHING!

Just think of the poor people in Africa and other countries and all of the poor countries where adults and kids die because they don't have clean water to drink, there isn't even enough food and medicines to cure all of the population.

The teachers of all the classes in the primary school made a poster of how we take care of the school like bathrooms, the playground, canteen and the classes of the primary school.

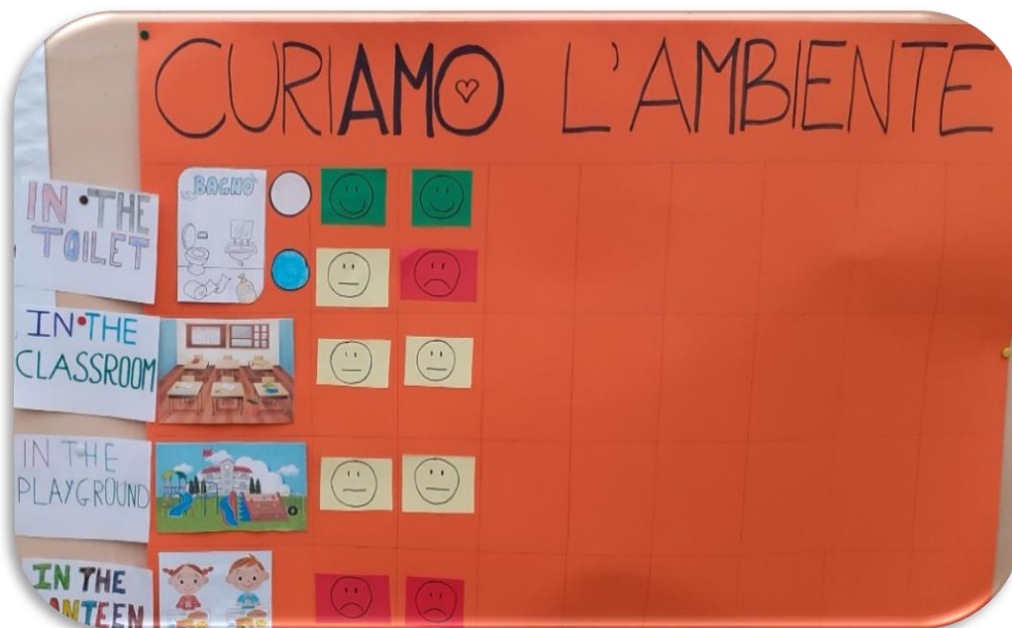

We started this project in October and we keep a record of it outside.

The teachers did it to make us reflect on how we look after the school environment.

We suggest to respect the following rules: Turn off the water taps when you use them, eat everything that is on your plate, turn off the lights, recycle as many things as possible...

Do you know others?

We would like to finish off by saying that you could at least try to respect all of the group rules we suggested for a better world.
