PRIMARY SCHOOL CARNIVAL PARADE

ON THE 25TH OF FEBRUARY ALL THE CLASSES OF THE PRIMARY SCHOOL CELEBRATED THE CARNIVAL DAY IN SPECIAL WAY. EVERY CLASS MADE A MASK WITH A THEME THEY ARE STUDYING AT SCHOOL WITH THEIR TEACHERS.

FOR EXAMPLE:

CLASS 1: EMOTIONS

CLASS 2: INSIDE OUT

CLASS 3: DINOSAURS

CLASS 4: EGYPTIANS

CLASS 5: THE GREEK GODS

AFTER THE PARADE ALL THE CLASSES CELEBRATED WITH A PARTY, WE ATE "CROSTOLI" "FRITTELLE" AND WE DRANK HOT TEA.

IT WAS A FANTASTIC CARNIVAL!!!

BEATRICE, LUIGI G., YUEXIN, ANDREA, EVAN

School Trip Class 4 and 5 – DISCOVERING THE FLORA OF MONTE GRAPPA

On the 3rd of March at 9:10, class 4 and our class went to the Lastego Nursery in Crespano Del Grappa.

We walked 1 h and 30 mins.

The guide taught us about lots of plants with flowers, trees and rocks.

Then we did a mini parkour – great! After we had lunch, we ate a sandwich, an apple and drank water and juice.

Later we had a break, after the break we went down to school, then we went to home.

It was very interesting and we were very happy.

Luigi, Caterina, Christian R, Youzou.

Taking Off the Mask of Pollution

Class 3 did a project about pollution with a teacher from the biennale di Venezia, online and their teacher Lucia. The laboratory was called “Smascheriamo l'inquinamento”. They identified the pollution of two different environments: Venice and the Savana. They had to transform the pollution in the photo into a photo without pollution by themselves. When they finished they sent it to Biennale di Venice.

Maybe they'll become famous for the pictures they made with teacher Lucia.

They haven't received an answer about the picture yet.

They liked this lab.

Carlo, Alberto, Riccardo e Michelle.

Class 4 project – Recreating Babylonian Architecture

The class 4 project started in February.

The class was divided in 5 groups, each group made a Babylonian Architecture Model.

They chose carton pieces then they assembled the pieces and painted them blue and yellow then someone in the groups made some figurines.

They brought the work to school, they did this work because their teacher had taught them about the Babylonian Civilization

Eva, Clara, Pietro, Christian F, Enzo.

Our Greek Vases

At the end of February class 5 recreated some Ancient Greek Vases.

We started off by getting a big sheet of paper with a vase printed on it. We drew the vase and coloured with the colours that we liked. Then we painted it with black paint and let it dry. After we painted a second layer over it and let it dry again.

The teacher printed some Greek gods' helmets and mythological animals for us. We put the sheet over the vase and with a pen we traced over the lines of the figures and after with a thin wood stick we traced over the black paint so that you can see the fabulous figure with its bright colours. In the end we decorated the vase with some strange shapes and signed our names on the art work using the Greek alphabet.

It was really fun.

Mathias, Niklas, Giuditta and Edoardo

PENFRIEND PROJECT

Our penfriends live in England and go to BLEAK HILL PRIMARY SCHOOL.

They live in a large town called *St. Helens*.

Their teacher is MR. HARRISON.

The penfriends start school at 8:55 and finish school at 15:25.

They wrote a letter to us, they wrote about their favorite day of the week.

In another letter they wrote a description of their school and spoke about their family.

Also class 4 has started the penfriend project they write to Class 4A in the same school.

Their teacher is *Mrs. Ashton*.

They have just received their 1st letter and a **Christmas** card.

For us it is a beautiful experience.

YOUZHOU, LUIGI C.
